

# Core Range

## Multi-Managed Solutions

A complete range of solutions designed to meet your goals

“Multi-manager investing is based on the assumption that no single manager/investment style can perform well in all markets and deliver superior performance across all phases of the investment cycle”

### ABOUT US – STANLIB MULTI-MANAGER

20 years+ of multi-asset know-how

R170 billion+ under stewardship

Experienced investment team

Proven philosophy and process to deliver on investment objectives

Strong performance track record

STANLIB Multi-Manager, the centre of excellence for multi-managed solutions in the Group, has constructed a comprehensive multi-managed range of solutions, well diversified across domestic and global asset classes with clearly defined investment objectives to help you manage achieve your financial goals.

The Solutions are constructed as a *hybrid* between domestic balanced and offshore specialist mandates. Capital is allocated across the full spectrum of asset classes and strategies, with the underlying managers given complete flexibility to add value through stock selection and /or asset allocation.

### MULTIPLE BENEFITS

- **Single entry point** – enables you to track an extensive range of investments and underlying managers through a single solution
- **Allows for additional diversification** – tap into the resources, skills and competencies of more than just one asset manager. The solutions are invested with some of the “best of breed” managers locally and offshore
- **Manager research** – due to the increasing complexity of investing, the search for suitable funds/ managers can be a full-time task. We do extensive research in the market – locally and offshore – to determine the right blend of asset managers to achieve the expected outcomes
- **Day-to-day monitoring of underlying managers** – we are the ultimate custodian of performance and risk management, which is embedded in our process
- **No capital gains tax (CGT) in non-product wrappers** – you do not have to pay any CGT when we make changes to the underlying managers (i.e. up/or down weight or replacement) within the respective solutions
- **Competitive fees** – no performance fees. The flat management fee includes the research and selection of underlying managers

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up. Past performance is not necessarily a guide to future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request the Manager. The Manager does not provide any guarantee either with respect to the capital or the return of a CIS portfolio. Forward pricing is used. The Manager has a right to close certain portfolios to new investors in order to manage it more efficiently. STANLIB Collective Investment (RF) (Pty) Ltd is an authorised manager in terms of CISA. As neither STANLIB Multi-Manager, a division of STANLIB Asset Management (Pty) Limited ("STANLIB") nor its representatives did a full needs analysis in respect of a particular investor, the investor understands that there may be limitations on the appropriateness of any information in this document with regard to the investor's unique objectives, financial situation and particular needs. The information and content of this document are intended to be for information purposes only and should not be construed as advice.
